Coleridge Faraday

Education

PhD in Physics, *University of Cape Town* 2025 – Present
- Supervisor: Assoc. Prof. W. A. Horowitz

MSc with Distinction in Physics, *University of Cape Town* (90%) 2023 – 2024
- Thesis: *Energy Loss and Theoretical Uncertainties in Small Quark-Gluon Plasmas*
- Supervisor: Assoc. Prof. W. A. Horowitz

Honours in Physics, *University of Cape Town* (85%) 2022
- Project: *Investigating the short path length corrections to jet phenomenology in heavy ion collisions*
- Supervisor: Assoc. Prof. W. A. Horowitz

BSc in Physics and Mathematics, *University of Cape Town* (81%) 2019 – 2021
- Project: *Spontaneous symmetry breaking and the Higgs mechanism.*
- Supervisor: Assoc. Prof. Heribert Weigert

Awards

Best PhD Oral Presentation, Theoretical and Computational Physics, SAIP 2025 2025
National Institute for Theoretical and Computational Sciences (NITHECS) Scholarship 2025 – 2027
Science Faculty PhD Fellowship, University of Cape Town 2025 – 2027
Manuel & Luby Washkansky Scholarship, University of Cape Town 2023
SA-CERN Excellence Scholarship 2023 – 2024
Science Faculty Scholarship, University of Cape Town 2020
Science Faculty Entrance Scholarship, University of Cape Town 2019
Dean's Merit List, University of Cape Town (not awarded in 2020 due to COVID-19) 2019, 2021
UCT Mathematics Olympiad Gold Award 2015, 2016
Professor John Webb Mathematics Scholarship, Wynberg Boys' High School 2014 – 2018

Publications

Journal Articles

[1] **Faraday, C.,** Bert, B., Brand, J., Vogelsang, W. & Horowitz, W. A. **Dec. 2025.** From Lead to Helium: Potential for a Measurement of Jet Quenching in the Smallest Collision Systems. Accepted for publication in Phys. Rev. Lett. doi:10.1103/ykmp-fy57. arXiv: 2512.17832 [hep-ph]. **2025**

Talks and Posters

Slides for my major presentations are available here under a CC-BY license.

Seminars

[1] *From Lead to Helium: Probing Matter at Extreme Temperatures and Sizes* UCT Physics Colloquium. University of Cape Town, Cape Town, South Africa. Oct. 2026.

[2] *From Lead to Helium: Searching for the Smallest Quark-Gluon Plasma* Invited pair of seminars at the UCT Centre for Theoretical and Mathematical Physics. University of Cape Town, Cape Town, South Africa. Aug. 2026.

[3] *Introduction to jet quenching phenomenology in the quark-gluon plasma* Invited pair of seminars at the UCT Centre for Theoretical and Mathematical Physics. University of Cape Town, Cape Town, South Africa. Aug. 2026.

[4] *Discovery Potential for Jet Quenching in the Smallest Collision Systems* McGill University, Montreal, Canada. June 2026.

[5] *Uncovering Jet Quenching in the Smallest Hadronic Collision Systems* University of Illinois Urbana-Champaign, USA. June 2026.

[6] *Discovering the smallest droplet of quark-gluon plasma through jet quenching* Rising Researchers Seminar Series, hosted by the University of Washington. Virtual. Apr. 2026.

[7] *Is there energy loss in small systems?* Set of three seminars. New Mexico State University Nuclear Theory Group (Virtual). June 2025.

Conference Talks

[1] *From Lead to Helium: Partonic Energy Loss in Very Light Ion Collisions* EMMI Workshop: Light-ion collisions 2026. Heidelberg, Germany. Sept. 2026.

[2] *Jet quenching in the smallest quark-gluon plasma droplet* 70th Annual Conference of the South African Institute of Physics (SAIP 2026). University of the Western Cape, Cape Town, South Africa. July 2026.

[3] *First exploration of hard-soft correlations from IP-Glasma* Hard Probes 2026. Vanderbilt University, Nashville, Tennessee, USA. June 2026.

[4] *Jet Quenching in the Smallest Hadronic Collision Systems* 60th Rencontres de Moriond 2026: QCD and High Energy Interactions. La Thuile, Italy. Mar. 2026.

[5] *Light-Ion Suppression from pQCD Energy Loss with Small-System Corrections* Light ion collisions at the LHC - 2025. CERN, Geneva, Switzerland. Dec. 2025.

[6] *Statistical Analysis of Energy Loss Across System Size* Precision Frontier of QCD Matter: Inference and Uncertainty Quantification. Central China Center for Nuclear Theory, Central China Normal University, Wuhan, China. Sept. 2025.

[7] *Energy Loss as a Probe of Quark-Gluon Plasma Formation Across Collision System Size* 69th Annual Conference of the South African Institute of Physics (SAIP 2025). University of the Witwatersrand, Johannesburg, South Africa. July 2025.

[8] *Energy Loss in Small Quark Gluon Plasmas* 68th Annual Conference of the South African Institute of Physics (SAIP 2024). Makhanda, South Africa. July 2024.

[9] *Heavy Flavour Energy Loss in Small and Large Systems* The 21st International Conference on Strangeness in Quark Matter (SQM 2024). Strasbourg, France. June 2024.

[10] *High-p_T suppression in small systems* 30th International Conference on Ultrarelativistic Nucleus-Nucleus Collisions (Quark Matter 2023). Houston, Texas, USA. Sept. 2023.

[11] *Short path length corrections to pQCD phenomenological energy loss models in a QGP* 67th Annual Conference of the South African Institute of Physics (SAIP 2023). Richard's Bay, South Africa. July 2023.

Conference Posters

[1] *From Lead to Helium: Discovery Potential for Jet Quenching in the Smallest Collision Systems* Hard Probes 2026. Vanderbilt University, Nashville, Tennessee, USA. June 2026.

[2] *Data-Driven Predictions for Small System Energy Loss* Quark Matter 2025. Goethe University Frankfurt. Apr. 2025.

Outreach Talks

[1] *Matter at the Extreme: the Quark-Gluon Plasma* UCT Physics Postgraduate Showcase 2026. University of Cape Town, Cape Town, South Africa. Oct. 2026.

[2] *The Hottest Substance in the Universe* NITheCS Bursary Holders Workshop 2026. University of Stellenbosch, South Africa. Apr. 2026.

[3] *What Happens When Protons Melt?* Cape Town, South Africa. Sept. 2025.

[4] *Outreach talk to disadvantaged primary school students* In collaboration with Bartosch Foundation. Masiphumelele, South Africa. July 2025.

[5] *Smashing Atoms to Rewind the Universe* The University of Cape Town's Society of Physics Students. Cape Town, South Africa. May 2025.

[6] *Racing Balls* Phenomenal physics (high school outreach). Cape Town, South Africa. Oct. 2024.

[7] *Introduction to Heavy-Ion Physics* Outreach trip to University of Venda. Thohoyandou, South Africa. Sept. 2024.

[8] *Quark Gluon Plasma Formation in Small Systems* ATLAS Showcase, UCT-CERN relaunch. Cape Town, South Africa. Nov. 2023.

[9] *Probing the Early Universe with Extreme Temperature Physics* Postgraduate Showcase 2023. Cape Town, South Africa. Oct. 2023.

Academic Service

Postgraduate representative for Physics Department, University of Cape Town — 2025 – Present
Organizer, UCT Physics Postgraduate Showcase — 2025, 2026

Reviewing

SCIENCE CHINA Physics, Mechanics & Astronomy
Annals of Physics
Proceedings of the 68th Annual Conference of the South African Institute of Physics
Proceedings of the 69th Annual Conference of the South African Institute of Physics
Proceedings of the 70th Annual Conference of the South African Institute of Physics
ESKOM Science Expo 2025 Project Judge

Teaching

Third Year Particle Physics (UCT), Tutor 2026
Quantum Field Theory II (SATACS), Tutor 2025
Quantum Field Theory I (SATACS), Tutor 2024, 2025
Honours Statistical Physics (UCT), Tutor 2024
Honours Quantum Mechanics (UCT), Tutor 2023, 2024
Third Year Statistical Physics (UCT), Tutor 2023, 2025
First Year Physics (with laboratory) (UCT), Tutor 2022
High School Physics, Mathematics, Chemistry, and Computer Science (Chit-Chat Tutoring), Private Tutor 2019 – 2022

Mentorship roles

Ben Bert. Research mentor for honours and MSc projects in phenomenological energy loss at UCT 2023 – Present
Tiaan van der Merwe. Research mentor for honours and MSc projects in phenomenological energy loss at UCT 2024 – Present
Jack Brand. Research mentor for honours and MSc projects in phenomenological energy loss at UCT 2025 – Present
Daniel Broomhall. Research mentor for an honours project in phenomenological energy loss at UCT 2026
